Introduction

There are four products in this series. They all have a natural healing capability, due to the well known property of colloidal silver, copper, and gold in disrupting the oxygen cycle in bacteria, and damaging the protein walls of viruses. They can be used with any infection, such as a cold, flu, or injury. There is much research information available online about this aspect of colloidal metals. This article focuses on the energetic aspect of the ionic colloids. The products are made in small batches from Miracle Water (see www.miraculewater.com) and have a full range of particle sizes (single ions up to 1 micron particles). It takes about six hours to make four bottles. The slow process and small volumes are used to ensure high energetic quality, and consistency. The location where they are made is a healing center which is a sacred sanctuary grounded and supported by three large quartz and citrine crystals (250lbs up to 370lbs). Thai massage, reiki, and yoga are practiced in this sacred space. Dawn Mazur, a very sensitive light worker, has related the energetic effects of the products, and has worked through each one. Kinesiology was used to confirm some of the effects given below.

Silver - Platinum – Iridium

This is the first in the series. This gives a high frequency, body-wide shift. The silver - platinum – iridium cleared out years of energetic pollution, allowing intensity and clarity of visions she had not seen for many years. Strengthens and makes flexible the walls of the blood vessels, works on the blood fluid energy, and the first (white) energetic layer around the body. Cleared up years of eye pain and twitching Dawn had experienced.

Copper

This is the second in the series. Dawn experienced a lower frequency “light show” which was very dramatic for her. Many sacred geometric patterns were seen. Copper has been found to restore natural color to the hair. It improves the quality of myelin sheaths around the nerves. Dawn saw feminine closed sacred geometries, with male stellate structures inside. So far every one has tested to need a similar dose to shift the second (gold) energetic layer; from 1.5oz to 2.5oz per day for 7 to 14 days, followed by 0.5oz per day for a few weeks.

Copper - Palladium

This is the third in the series. Dawn found this expanded and softened the third energetic layer from the body, from one inch out to six inches. The color was violet with spheres containing tiny stellate structures. The frequency is higher than pure copper, the geometric shapes spinning fast. The nerve synapses fire in a “clearer” way, as if electrical disturbances are removed. Works on the brain stem, and raises the vibration of each cell.
